

> Summary

1.0	> Definitions/Glossary	6
2.0	> Managing electrical risks	8
2.0.1	How to identify electrical hazards?	10
2.0.2	How to assess the risk?	11
2.0.3	Risk management - Hierarchy of control	12
2.0.4	Reviewing Risk Assessment	13
3.0	> Requirements	13
3.0.1	General requirements	14
3.0.1.1	Work with electrical tools, and/or nearby electrical equipment, and/or in electrical cabinets/rooms	14
3.0.1.2	Personal Protective Equipment (PPE)	16
3.0.1.3	Inspecting & Testing	20
3.0.1.4	Residual Current devices (RCDs)	21
3.0.2	Requirements for high voltage electrical work	22
3.0.3	Requirements for works near or underneath overhead electric lines	23
3.0.3.1	Service Lines on Customer Properties	23
3.0.3.2	Overhead Lines on Veolia Properties	23
3.0.3.3	Vehicle Operations in the Vicinity of Overhead Lines	24
3.0.4	Requirements for works near underground electric lines	26
3.0.5	Emergency plan for works in the vicinity of overhead or underground electric lines	27
3.0.6	Lightning protection	27
	APPENDIX 1: Applicability and Compliance Assessment	28
